

3DQC VERITASTM

Instrument Features

Rugged & Durable Housing

Built tough for print production environments
9.8" x 4.5" x 6.0" • 250mm x 115mm x 153mm

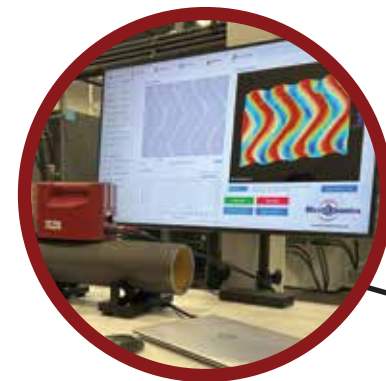

Ergonomic, integrated handle

Built for ease of use & mobility • 6.4 lbs • 2.9kg

Scans in < 8 seconds with MicroScan3 software

White light interferometry
with +/- 1% repeatability

Status LED Lights

Indicates system readiness
& various scanning modes

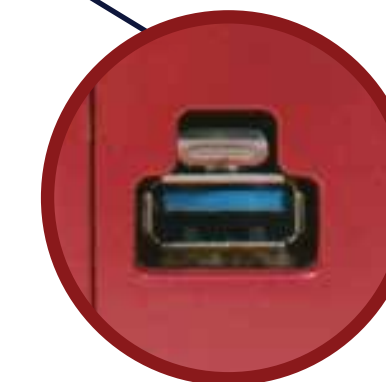

Robust Internal Optics

Increased dust & damage resistance

Locking USB and power connectors

Super-fast USB 3.0 data transfer speeds
100 VAC • 240 VAC • 50-60Hz • <6 Watts

Extended, machined aluminum base plate

Protects optics with no damage to the roll
